Dear Zag,

This Student Quarantine Guide will walk you through all the things you need to know during your time in quarantine. Even though we have tried to think of everything possible, there will be questions on yours or your families' minds that you deserve to have answered. Throughout this Guide are many contacts to reach out to if you need something specific or you just want to connect with someone.

We understand that this process is inconvenient for you. The world that we find ourselves in is stressful and full of anxiety. But we also know that by holding to processes like quarantine, we will lessen the chances of you or your peers becoming sick. And keeping you healthy and cared for is what matters most to us.

The only way we will get through this is if we commit to these processes because even though they are challenging, they are proven to be the most effective way to keep you safe.

Most importantly, please remember:

You are not alone, and we are all in this together.

Managing classes remotely may be different during quarantine. There are many virtual resources available to support your academic success. After following the steps in the Academic Support section on page 8, please feel free to connect with our staff.
Quarantine helps to prevent more people from getting sick and helps GU support you in all of your needs. You have been moved because you have recently come into close contact with someone who tested positive for or experienced symptoms of COVID-19.

You will have to quarantine for at least 10 days if your close contact tests positive for COVID-19. If their test comes back negative, you will be cleared to leave and return to your residence hall with assistance from the Residence Director (RD) on-call.

In order to complete the 10 day quarantine, you will need to be tested at least 7 days after last exposure. If you are not tested on day 7 or later, you will need to complete a 14 day quarantine period.

Here is an example: Someone exposed on the 16th, would need to be tested on the 23rd. As long as they test negative, they would be released on the 27th, 10 days from their exposure.

More information on testing can be found on page 7.

While in quarantine, please keep an eye out for:

Cough
Shortness of breath
Fever
Headache
Chills
Sore throat
Muscle aches
Loss of taste or smell

In order to complete the 10 day quarantine, you will need to be tested on day 8 after last exposure. To schedule a test with Health & Counseling Services call (509) 313-4066. Contact Tracers will work with you to assist with this process.
As much as we would like to know well in advance when our students need to go to a quarantine space, that is just not guaranteed. Sometimes our students must be moved very late at night in a very quick manner which of course is not ideal. But we hope that this information will make your move-in process as smooth as possible:

- You will be notified by a Contact Tracer of your need to relocate to a quarantine space
- You will have 30 minutes to get packed up and ready to go. Feel free to pack some snacks so you aren't hungry when you arrive
- The RD will call you to give you specific move in instructions
- The RD will meet you at your residence hall at the arranged time and take you to your quarantine space.

You will be gone for 10 days so pack accordingly. That being said, please do not bring any large items (e.g., TVs, Playstations, Gaming Consoles, etc.). Essentials would include:

- Clothing
- Academic Necessities (laptops, computers, notes)
- Thermometer
- Hygiene Products
- Snacks to keep in your room
- Smaller hobby/activity items

When you dropped off at your quarantine building, you can go to your own room and get settled.

To limit the spread of COVID-19, students placed in quarantine are not permitted to leave their room or host visitors until the end of their quarantine period. There will be designated, University supervised outside time for students in quarantine. Information on times will be made available at time of quarantine. You are still permitted to leave your room to receive medical care or get tested.

**NOTE:** Alcohol, cannabis, and tobacco use are not permitted in the isolation and quarantine facilities. Students who are found in violation of this rule will be subject to severe conduct outcomes.
We want to make your experience as comfortable as possible. You will automatically be enrolled to receive meals from Zag Dining. You will be provided with order forms to self-select your preferred items and have the ability to review any concerns about food allergies or dietary restrictions with a dietitian. These meals will be delivered to your quarantine or isolation room.

Meals will be delivered in a bag to your front door, **Monday-Saturday**. Meals will include lunch for that day, dinner for that day, and breakfast for the following morning. **Saturday deliveries will include meals for the entire weekend**. You will order from a menu provided by Zag Dining that includes a variety of choices to accommodate food allergies, additional preferences, and portion needs. Snacks and drinks will also be included.

- **Your student account will be charged for each day you receive meals through the Zag Dining program if you do not have a meal plan.** If you are in need of financial assistance, please know that support is available. For all billing questions please contact shadd@gonzaga.edu.
- Meal deliveries will conclude on the last full day of your quarantine. That delivery will provide you with food through breakfast of your move out day.

Due to safety concerns, we cannot permit students to exit their rooms to receive food delivered to the building exterior. Students who are found in violation of delivery restrictions will be subject to conduct outcomes.

If you have any questions or concerns about your meal delivery please contact Zag Dining at:

ZagIQMeals@sodexo.com
When you are moved to an isolation or quarantine space, you will need to be tested for COVID-19 if you have not been tested already.* If you have been exposed to or have symptoms of COVID-19, you should NOT be tested at the campus surveillance testing or walk-in testing. You will need to schedule an appointment to be tested through Health and Counseling Services. Your contact tracer can work with you to determine how and when to do this.

You will be asked to test twice during your quarantine timeline:
- Test 1: Immediately after your exposure, and
- Test 2: Between days 7-10 at the end of your quarantine

Test results will come back within a few hours for the antigen test and may take 2-3 days if you take a PCR test.

You may be asked to take your second test earlier in your quarantine timeline if you begin to experience symptoms of COVID. Let your contact tracer know if these begin at any point.

If both of your tests come back negative, you will need to remain in quarantine for the remainder of the 10 days. This is due to the incubation period of 2-14 days for COVID-19. If your test comes back positive, you will need to move to an isolation space and will be given instructions by your contact tracer for next steps.

You will not need to be tested again unless instructed to do so by a healthcare provider or contact tracer.

You can be tested at Health and Counseling Services by calling 509-313-4066 and scheduling a testing time.

* Leaving quarantine or isolation for medical appointments and/or testing is allowable.
It is very important to us that you have the tools and resources you need to stay caught up academically while in quarantine. Unless you are currently experiencing symptoms that inhibit your ability to attend classes online, you are expected to remotely participate in your classes via Zoom.

Yes, please email your instructors to let them know you will be attending your classes remotely. Be sure to include:

- Your first and last name
- The course in which you are enrolled - with course name and section if possible
- Why you will be absent. Simply stating that you are in quarantine will suffice - you do NOT need to give specific health information
- State that you will be in touch regarding missed coursework/exams

- Make arrangements for someone else in class to help with notes (if possible)
- Discuss options (via email or virtual appointment) with your instructors for staying on track in the course while you are not able to attend
- Once you are able to return to class (whether online or in-person, make sure to follow up with your instructors and let them know
- If you are behind, make a plan to meet with your instructor to discuss getting back on track

Academic Advising & Assistance (AAA) is here to support you. If you are unsure of what to do regarding attending class or need help with notifications or advocacy, make an appointment with a professional advisor:

(509) 313-4072
advise@g Gonzaga.edu
Mail Services will be notified that you are in quarantine. Mail will be held in Mail Services until you have been cleared and released from quarantine and can pick it up.

Essential item(s) can be delivered if necessary. Please make sure to bring these documents with you for move-in to avoid delivery issues.

Essentials include:

- Legal documents
- Medicine
- Required academic materials

Requests for delivery must be received by Mail Services prior to 9:00am for same day delivery. Any requests received after 9:00am will be delivered the following day.

To request delivery of an item, send an email to

mailservices@gonzaga.edu

Include your name, quarantine location (including room number), and MSC#

Delivery Time

Same as meal delivery

You must email Mail Services (mailservices@gonzaga.edu) after you received your package(s) for confirmation of delivery.
Your room comes with two sets of linens, bath towels, washcloths, and blankets. These will be laundered every three days for you and must be placed in their designated bag. Reservations are required for general laundry and you will need to indicate your quarantine location by using this QR code:

- Reservations are required by **noon on Tuesday**.
- A laundry bag will be delivered to your unit door Tuesday afternoon.
- Place your laundry in the laundry bag and place it outside of your unit door.
- Pick-up time is **Wednesday morning, 8:00am-9:00am**.
- Your clean laundry will be placed outside of your unit door Friday afternoon.

- Please leave the bag outside of your unit door for retrieval by University staff.
- The laundry vendor offers basic service and won't separate light from dark. Please do not include any items that require special care. Neither the laundry vendor nor Gonzaga University will provide compensation for missing or damaged items.

Trash will be picked up **Monday-Friday**, please make sure to follow these steps:

- Securely bag and tie the trash bag.
- Place the trash bag outside of your room each morning, do not leave out overnight otherwise there could be spilling and leaking.
- Please place trash outside of your room by **10:00am**.

If you have any questions, please contact Residence Life at:

509-313-4103
housing@gonzaga.edu
Quarantine

FUN THINGS TO DO

- Have a virtual Netflix party while on the phone with friends
- Read a new book you have been wanting to try
- Call and catch up with relatives and old friends
- Try a virtual yoga routine or class
- Start a blog or write about your experience
- Write a letter to elderly family members
- Check out virtual events through the Office of Diversity, Inclusion, Community and Equity (DICE)
- Check out Zagactivities for weekly virtual events
- Learn a second language with apps like Duolingo or Babbel
- Seek virtual volunteer opportunities through the CCE
- Watch the films that have won "Best Picture" Oscars
- Grow out your beard or try a new hairstyle (if you don’t like it, no one will see!)
You will receive a call from your Contact Tracer and RD when it is time for you to move out of quarantine. Please wait for the Residence Director before leaving your room.

- You can begin packing up your belongings once you have received notification from your Contact Tracer.
- Your Contact Tracer will update your status so that you are cleared for returning to campus.
- The Residence Director will call you to give you specific move out instructions.
- You will then be allowed to move back to your room, the RD will make arrangements to collect your keys.

Please email your instructors to let them know that you can return to your in-person classes, if applicable. As you return to campus, please remember our general guidelines:
- Wear your mask
- Avoid large gatherings
- Maintain 6 feet of physical distancing
- Practice good hand hygiene

We need your assistance in following these requirements. These processes are necessary to keep members of our community safe and healthy and to restrict the spread of COVID-19.

At Gonzaga University, the health, safety, and welfare of every member of our community is our first and most important priority, and taking steps to minimize the risk of COVID-19 infections is a shared responsibility that all of us must embrace. Everyone in the Zag community must work together to protect our community, comply with University directives, and adhere to national, state, and local public health guidelines and requirements.

In order to protect the health and well-being of our community, we simply cannot permit students placed in quarantine or isolation to engage in behaviors that are incongruent with these expectations. **Leaving quarantine or isolation without permission, or inviting/providing entry into a designated quarantine or isolation facility to others who have not been assigned there by the University, are serious infractions for which there must be significant consequences which can include removal from campus housing and possible separation from the University.** Students who are in violation of these expectations will be held accountable consistent with the provisions in GU’s Student Code of Conduct.

Wherever you are assigned to isolation or quarantine status – whether in a designated residential facility or in your place of residence – it is a requirement that you remain in that space until your designated time of isolation or quarantine has concluded. The only time you should exit is for approved medical reasons, including medical emergencies or COVID-19 testing, or for University-approved isolation and quarantine activities.

The vast majority of GU students placed into isolation or quarantine have been cooperative and are working hard to make the best of a difficult situation. Thank you. This experience has not always been smooth or easy, but we have been able to keep the number of COVID-19 positive cases on our campus to a manageable level, due in very large part to Zags’ acknowledgement of their role in keeping themselves and others safe.

Let’s keep that Zag spirit going!
Dear Zag,

We know your time in quarantine may have been challenging and we cannot begin to thank you enough for your understanding, grace and support throughout this process.

We also recognize that there are always opportunities for improvement so please take the Move Out Survey that will be emailed to you as soon as possible. This survey helps to ensure that other students in quarantine receive the support that they need.

When we started this process, we said that the only way we will get through this is if we work together. From the bottom of our hearts, thank you for your help in these critically important efforts.

Because of you, we will ZAG ON.
